

# Client Reviews

"In our community, we have long looked for the right platform to bridge the gap between technology and language revitalization. Our work with Thornton Media in creating our Maskwacis Cree Language App for the iPhone/iPad has more than fulfilled that need. We have approximately 600 words in our first Language App and have plans to develop more Apps with Thornton Media. Knowing we partnered with the right company came when my daughter in law sent me a video of my grand-daughter using the App. When my grand-daughter said a word right she yelled out with excitement, 'I got it right!'"

Vernon Saddleback, Council Member  
Samson Cree Nation

"In March 2014, the Tsuut'ina Gunaha Institute had the pleasure of working with Don and Kara Thornton of Thornton Media to develop the very first Tsuut'ina Language APP. From the moment they arrived on-site Don and Kara made very effective use of their time and resources. They were very patient and understanding while working with various members of our community, and provided great suggestions to make our APP the best it could be. They were very accommodating of our suggestions as well. Thornton Media is quality-oriented and they assured us that any APP they release will be the best quality possible. We at the Tsuut'ina Gunaha Institute are very pleased with our Tsuut'ina Language APP, and the APP has been very well received by our community. We would be pleased to work with Thornton Media in the future and would recommend their services to anyone."

Steven Crowchild, Director  
Tsuut'ina Gunaha Institute

The Land and Culture Department of The Confederated Tribes of Grand Ronde have truly enjoyed working with Thornton Media on the creation of the Tribe's Chinuk Wawa App. Thornton Media were very organized and made it easy to have such a successful end product. They gave us clear directions and a concise time line to work with. Staff were readily accessible and always helpful when we had any issue or question. We highly recommend Thornton Media for the creation of your language application.
